RESTORE ILLINOIS

A Public Health Approach To Safely Reopen Our State

PART OF PHASE 3 OF RESTORE ILLINOIS PLAN

APPLICABLE TO EACH REGION UPON TRANSITION TO PHASE III | ISSUED ON MAY 24, 2020

The Recovery Phase of the Restore Illinois public health approach to reopening the Illinois economy includes returning people to work, businesses reopening and group gatherings of 10 or fewer. We must all continue to social distance, frequently wash our hands and cover our faces to maintain progress in overcoming COVID-19.

This document is applicable to businesses that meet the following criteria:

- Hair salons, hair braiders, barber shops, nail salons, spas, massage therapy clinics, waxing centers, tattoo parlors, tanning salons, hair club services, other providers of personal care services, and salons operated by schools of barber, cosmetology, esthetics, hair braiding, and nail technology
- In Phase III, services for personal care should be limited to:
 - Services which can be performed while customer and employee are wearing a face covering over their nose and mouth
 - If services require customer to remove his or her mask, employee must wear both a face mask and eye protection (e.g., face shield, protective glasses)
- In Phase III, use of hair dryers and blow dry services are allowed

Uniform guidelines across businesses, industries and nonprofits within the State of Illinois:

GENERAL HEALTH

i. Minimum guidelines

1. All employees who can work from home should continue to do so
2. Employees should wear face coverings over their nose and mouth when within 6-ft. of others (cloth masks preferred). Exceptions may be made where accommodations are appropriate – see [IDHR's guidance](#).
3. Social distance of at least 6-ft. should be maintained between non-household individuals unless participating in activities permitted under Phase III guidelines
4. Employer should provide hand washing capability or sanitizer to employees and if applicable, customers
5. Frequent hand washing by employees, and an adequate supply of soap/ paper towels and/or disinfectant/ hand sanitizer should be available

HR AND TRAVEL POLICIES

i. Minimum guidelines

1. All employees should complete health and safety training related to COVID-19 when initially returning to work. Resources to design a training are posted on the DCEO Restore Illinois guidelines website
2. Employers should continue to limit all non-essential business travel
 - a. If employee must travel, employee should follow CDC considerations to protect themselves and others during trip
3. Employees should not report to, or be allowed to remain at, work if sick or symptomatic (with cough, shortness of breath or difficulty breathing, fever of 100.4 degrees or above, chills, muscle pain, headache, sore throat, new loss of taste or smell, or other [CDC-identified symptoms](#)), and sick or symptomatic employees should be encouraged to seek a COVID-19 test at a state or local government testing center, healthcare center or other testing locations

ii. Encouraged best practices

1. Provide reasonable accommodation for COVID-19-vulnerable employees, including but not limited to work from home (if feasible), reduced contact with others, use of barriers to ensure minimum distance between others whenever feasible or other accommodations that reduce chances of exposure

HEALTH MONITORING

i. Minimum guidelines

1. Employers should make temperature checks available for employees and encourage their use. Employers should post information about the symptoms of COVID-19 in order to allow employees to self-assess whether they have any symptoms and should consider going home
2. All employers should have a wellness screening program. Resources outlining screening program best practices are posted on the DCEO Restore Illinois website
 - a. Employer should conduct in-person screening of employees upon entry into workplace and mid-shift screening to verify no presence of COVID-19 symptoms
3. If employee does contract COVID-19, they should remain isolated at home for a minimum of 10 days after symptom onset and can be released after feverless and feeling well (without fever-reducing medication) for at least 72 hours OR has 2 negative COVID-19 tests in a row, with testing done at least 24 hours apart
4. If an employee is identified as being COVID-19 positive by testing, CDC cleaning and disinfecting should be performed as soon after the confirmation of a positive test as practical
5. Where appropriate, notify employees who have been exposed
6. Any employee who has had close contact¹ with co-worker or any other person who is diagnosed with COVID-19 should quarantine for 14 days after the last/most recent contact with the infectious individual and should seek a COVID-19 test at a state or local government testing center, healthcare center or other testing locations. All other employees should be on alert for symptoms of fever, cough, or shortness of breath and taking temperature if symptoms develop

¹ Close contacts include household contacts, intimate contacts, or contacts within 6-ft. for 15 minutes or longer unless wearing N95 mask during period of contact.

Guidelines specific to personal care services businesses:

PHYSICAL WORKSPACE

i. Minimum guidelines

1. Service provider should display signage at entry with face covering requirements, social distancing guidelines, and cleaning protocols, in multiple languages as needed
2. Service provider should configure space to allow for at least 6-ft. of distance between customers
3. Service provider employees should maintain social distance to the extent possible while performing services
4. Service provider should remove shared items (e.g., magazines) from waiting areas and configure any seating to be 6-ft apart to allow for social distancing
 - a. Any surfaces in waiting area (e.g., seats) touched by customers should be disinfected after use
5. Service provider should eliminate service of all beverages
6. Water fountains, except for touchless water bottle refill stations, should be made unavailable for use (e.g. turned off, covered, area blocked)
 - a. If no touchless fountain is available, water may be served in sealed, single-use water bottles

ii. Encouraged best practices

1. Display visual markers 6-ft. apart at customer queue points
2. If practical, install impermeable barriers between work stations
3. If practical, implement touchless transactions
4. Reduce number of items on surfaces to allow for easier cleaning, including any retail items available for purchase
5. Remove shared products (e.g., beauty testers) from displays and discourage handling of display items
6. Make hand sanitizing products available for employee and customer use
7. Where building management practices allow, increase air turnover rates in occupied spaces and increase outside make-up air to the maximum extent practical

DISINFECTING/CLEANING PROCEDURES

i. Minimum guidelines

1. Cleaning and disinfecting of premises should be conducted in compliance with [CDC protocols](#) on a weekly basis
2. Clean and disinfect common areas (e.g., restrooms, cafeterias) and surfaces which are touched by multiple people (e.g., entry/exit doorknobs, stair railings) frequently; every 2 hours recommended for high-traffic areas
3. Service provider should fully disinfect work stations before serving each customer and at closing time (see [EPA approved list of disinfectants](#))
4. After use, service provider should fully clean and sanitize reusable customer articles (e.g. towels, blankets, capes, robes) before they can be used by another customer or alternatively use single-use articles and dispose of articles after customer use

STAFFING AND ATTENDANCE

i. Minimum guidelines

1. Maximum of 50% of capacity OR 5 customers allowed per 1000 sq. ft. of usable space (see [DCEO guidance](#))
 - a. For salon suites, capacity limits should be applied within each suite
2. Service provider employees should social distance from customers while not performing services
3. Service provider should limit the occupancy of common areas/ break rooms to allow for social distancing of 6-ft or greater by removing/ decommissioning furniture or staggering break times; this guideline is not intended to diminish employees break time requirements

ii. Encouraged best practices

1. If practical, alter hours of operation to adequately spread out customer traffic and allow for additional cleaning time
2. Stagger shift start and end times to minimize congregation of employees during changeovers
3. If practical, group employees in clusters and schedule groups on same shifts to reduce cross-team exposure

EXTERNAL INTERACTIONS

i. Minimum guidelines

1. Before allowing external supplier or non-customer visitor to enter, or while requiring them to wait in a designated area, service provider should ask whether external supplier or visitor is currently exhibiting COVID-19 symptoms
 - a. If practical, service provider should take external supplier or non-customer visitor temperature using thermometer (infrared / thermal cameras preferred, touchless thermometers permitted)
2. Service provider should keep log of all external suppliers who enter premises
3. Suppliers and other non-customer visitors should wear face coverings over their nose and mouth when entering premises (exceptions can be made for people with medical conditions or disabilities that prevent them from safely wearing a face covering)

ii. Encouraged best practices

1. Limit contact between external suppliers/ non-customer visitors and employees

CUSTOMER BEHAVIORS

i. Minimum guidelines

1. Reservation only, no walk-ins
2. Customers should wear face coverings over their nose and mouth (exceptions can be made for people with medical conditions or disabilities that prevent them from safely wearing a face covering)
3. If customer has COVID-19 symptoms, they should wait to enter premises until they have had no fever for at least 72 hours, other symptoms have improved, and at least 10 days have passed since their symptoms first appeared

ii. Encouraged best practices

1. If practical, customers should wait for services off premises
2. Before allowing entrance, service provider asks whether customer is currently exhibiting COVID-19 symptoms
 - a. If practical, employer should take customer temperature using thermometer (infrared / thermal cameras preferred, touchless thermometers permitted)
