

# INDOOR & OUTDOOR RECREATION GUIDELINES

Illinois  
Department of Commerce  
& Economic Opportunity  
JB Pritzker, Governor

## RESTORE ILLINOIS

A Public Health Approach To Safely Reopen Our State

### PART OF PHASE 4 OF RESTORE ILLINOIS PLAN

APPLICABLE TO EACH REGION UPON TRANSITION TO PHASE IV | ISSUED ON JUNE 22, 2020 | EARLIEST EFFECTIVE DATE JUNE 26, 2020

The Revitalization Phase of the Restore Illinois public health approach to reopening the Illinois economy includes larger gathering sizes, additional businesses reopening and increased capacities. We must all continue to social distance, frequently wash our hands and cover our faces to maintain progress in overcoming COVID-19.

#### This document is applicable to businesses that meet the following criteria:

- Customer-facing establishments primarily engaged in providing indoor and outdoor recreational and amusement services
  - ♦ Examples of indoor and outdoor recreation businesses include (non-exhaustive): arcades, bingo halls, escape rooms, ice skating, roller skating, laser tag, driving ranges, outdoor shooting ranges, paintball courses, outdoor adventure parks
  - ♦ Amusement parks, trampoline parks and indoor playgrounds should remain closed
  - ♦ Water parks and recreational swimming will be allowed to reopen in accordance with guidance published by IDPH
- **Note:** Organizations that operate across multiple workplace environments should refer to applicable Phase IV guidelines for guidance on those workplaces
- **Note:** As of release, indoor recreation facilities should operate at lesser of 50 customers OR 50% of facility capacity. Outdoor recreation facilities should limit group sizes to 50 customers, with multiple groups permitted if proper social distancing and group management is enforced. Capacity restrictions and group sizes will be reassessed based on the latest science and public health metrics on an ongoing basis throughout Phase IV

#### Uniform guidelines across businesses, industries and nonprofits within the State of Illinois:

## GENERAL HEALTH

### i. Minimum guidelines

1. All employees who can work from home should continue to do so
2. Employees should wear face coverings over their nose and mouth when within 6-ft. of others (cloth masks preferred). Exceptions may be made where accommodations are appropriate – see [IDHR's guidance](#)
3. Social distance of at least 6-ft. should be maintained between non-household individuals unless participating in activities permitted under Phase IV guidelines
4. Employers should provide hand washing capability or sanitizer to employees and if applicable, customers
5. Frequent hand washing by employees, and an adequate supply of soap/ paper towels and/or disinfectant/ hand sanitizer should be available

## HR AND TRAVEL POLICIES

### i. Minimum guidelines

1. All employees and workers who perform work at the worksite (such as temporary or contract workers) should complete health and safety training related to COVID-19 when initially returning to work. Resources to design a training are posted on the [DCEO Restore Illinois guidelines website](#)
2. Employees should follow [CDC travel guidance](#) to protect themselves and others during business travel
3. Employees should not report to, or be allowed to remain at, work if sick or symptomatic (with cough, shortness of breath or difficulty breathing, fever of 100.4 degrees or above, chills, muscle pain, headache, sore throat, new loss of taste or smell, or other [CDC-identified symptoms](#)), and sick or symptomatic employees should be encouraged to seek a COVID-19 test at a state or local government testing center, healthcare center or other testing locations
4. Employers should clearly explain all paid leave policies and make workers aware that they may be eligible for benefits if they are sick or symptomatic
5. Employers should be aware that the Occupational Safety and Health Act of 1970 and provisions of state law prohibit employers from retaliating against workers for raising safety or health concerns

### ii. Encouraged best practices

1. Provide reasonable accommodation for COVID-19-vulnerable employees, including but not limited to work from home (if feasible), reduced contact with others, use of barriers to ensure minimum distance between others whenever feasible or other accommodations that reduce chances of exposure

## HEALTH MONITORING

### i. Minimum guidelines

1. Employers should make temperature checks available for employees and encourage their use. Employers should post information about the symptoms of COVID-19 in order to allow employees to self-assess whether they have any symptoms and should consider going home
2. All employers should have a wellness screening program. Resources outlining screening program best practices are posted on the [DCEO Restore guidelines website](#)
  - a. Employers should conduct in-person screening of employees upon entry into workplace to verify no presence of COVID-19 symptoms
  - b. If employee shift is greater than 5 hours, employers should also conduct mid-shift screening to verify no presence of COVID-19 symptoms (in person preferred, though virtually is permitted)
3. If employee reports having any COVID-19 related symptoms, they should remain isolated at home for a minimum of 10 days after symptom onset AND until feverless and feeling well (without fever-reducing medication) for at least 72 hours OR confirmed to not have COVID-19 via 2 negative COVID-19 tests in a row, with testing done at least 24 hours apart
4. If employee reports having any COVID-19 related symptoms, employers should encourage employee to contact their health care provider; if multiple employees report having any COVID-19 related symptoms, employers should notify their local health department within three days of being informed of the prevalence of COVID-19 symptoms; if multiple employees test positive for COVID-19, employers should notify their local health department within one day of positive test results
5. If an employee is identified as being COVID-19 positive by testing, CDC cleaning and disinfecting should be performed [according to CDC guidelines](#)
6. Where appropriate, notify employees who have been exposed. Employers should not identify an employee who tested positive by name
7. Any employee who has had close contact<sup>1</sup> with co-worker or any other person who is diagnosed with COVID-19 should quarantine for 14 days after the last/most recent contact with the infectious individual and should seek a COVID-19 test at a state or local government testing center, healthcare center or other testing locations. All other employees should be on alert for symptoms of fever, cough, or shortness of breath and taking temperature if symptoms develop

<sup>1</sup> Close contacts include household contacts, intimate contacts, or contacts within 6-ft. for 15 minutes or longer unless wearing N95 mask during period of contact.

## Guidelines specific to indoor and outdoor recreation:

## PHYSICAL WORKSPACE

### i. Minimum guidelines

1. Facility operators should [display signage](#) at entry with face covering requirements, social distancing guidelines, cleaning protocols, and any reduced capacity limit, in multiple languages as needed
2. If facility has stations for individual recreation activities, facility operator should ensure at least 6-ft. between stations. If stations cannot be moved, facility operator should limit number of open stations to ensure social distancing
3. Locker rooms and showers should be configured with signage, tape, and other markings to ensure members can maintain 6-ft. of social distance
4. Concessions should follow [Restaurant and Bar guidelines](#) for all food and beverage operations and should be one of the following:
  - a. Delivered by a server who takes orders from guests while seated with distancing requirements laid out in [Restaurant and Bar guidelines](#); OR
  - b. At outdoor kiosk, purchased pre-packaged via “grab and go” with queuing areas clearly marked to observe social distancing OR
  - c. At indoor quick service areas over 500 square feet, purchased pre-packaged via “grab and go” (no queuing permitted)
  - d. At indoor quick service areas 500 square feet and under, purchased pre-packaged via “grab and go” with queuing areas clearly marked to observe social distancing

### ii. Encouraged best practices

1. Display visual markers 6-ft. apart at customer queue points
2. If practical, install impermeable barrier between employee and customer at checkout

## DISINFECTING/CLEANING PROCEDURES

### i. Minimum guidelines

1. Cleaning and disinfecting of premises should be conducted in compliance with [CDC protocols](#) on weekly basis
2. Clean and disinfect common areas (e.g., restrooms, equipment rental counters) and surfaces which are touched by multiple people (e.g., entry/exit doorknobs, stair railings) frequently; every 2 hours recommended for high-traffic areas
3. Facility operators should thoroughly sanitize all rental and other utilized equipment before and after use by a customer. Rental equipment sanitization process should be properly displayed for customers and employees to comply with
4. Clean and disinfect occupied tables and seats between use by different groups or parties, and again at closing time
5. Sanitization of locker rooms and showers should be completed at least every hour
6. All required disinfecting, cleaning, or sanitizing activities to be conducted by employees should be within their normal workday or during otherwise compensated time

## STAFFING AND ATTENDANCE

### i. Minimum guidelines

1. Indoor recreation facilities should operate at lesser of 50 customers OR 50% of facility capacity
2. Outdoor recreation facilities should limit group sizes to 50 customers. Multiple groups permitted at once as long as:
  - a. Facilities allow for social distancing of customers and employees
  - b. 30-ft. of distancing is maintained between groups
  - c. Areas for each group are clearly marked to discourage interaction between groups
3. Facility operators should design a plan to allow for social distancing within the workplace and if needed, designate employee(s) to monitor capacity limits and social distancing
4. Facility operators should limit the occupancy of common areas/ break rooms to allow for social distancing of 6-ft. or greater by removing/ decommissioning furniture or staggering break times; this guideline is not intended to diminish employees break time requirements
5. Facility operators should develop a method to inform customers of available facility capacity before customers arrive at the facility (e.g. reservation system, overview of days/ times when establishment is typically most crowded)

### ii. Encouraged best practices

1. Stagger shift start and end times to minimize congregation of employees during changeovers

## EXTERNAL INTERACTIONS

### i. Minimum guidelines

1. Before allowing external supplier or non-customer visitor to enter, or while requiring them to wait in a designated area, facility operators should ask whether external supplier or non-customer visitor is currently exhibiting COVID-19 symptoms
  - a. If possible, facility operators should take external supplier or non-customer visitor temperature using thermometer (infrared / thermal cameras preferred, touchless thermometers permitted)
2. Facility operators should keep log of all external suppliers who enter premises
3. Suppliers and non-customer visitors should wear face coverings over their nose and mouth when entering premises (exceptions can be made for people with medical conditions or disabilities that prevent them from safely wearing a face covering)

### ii. Encouraged best practices

1. Limit contact between external suppliers/ non-customer visitors and employees

## CUSTOMER BEHAVIORS

### i. Minimum guidelines

1. Customers should wear face coverings over their nose and mouth (exceptions can be made for people with medical conditions or disabilities that prevent them from safely wearing a face covering)
2. Customers should check for available capacity before going to the facility

### ii. Encouraged best practices

1. Before allowing entrance, employers ask whether customer is currently exhibiting COVID-19 symptoms
  - a. If practical, employer should take customer temperature using thermometer (infrared / thermal cameras preferred, touchless thermometers permitted)
2. If practical, customers avoid touching facility accessories (e.g., pin flags, targets)
